

Back to *SFS School on the Go*

Dear Preschool and Kindergarten Families,

Thank you for your enthusiasm and cooperation as we initiate our Distance Learning Program (DLP), *SFS School on the Go*. The SFS faculty have been working diligently and have already become models and mentors to educators around the world (true story!) who are similarly transitioning to Distance Learning.

Last week, PS - K students received their *School on the Go* bags. Beginning Tuesday, March 17th, the PS - K Head Teachers will provide a daily virtual message via ParentSquare for parents/guardians to share with their children. The first of these will be a simple greeting by the teachers as an orientation to digital learning. Subsequently, their messages will include suggested daily schedules; lessons and activities; and occasional links to video messages. Teachers will also be in touch to schedule frequent video chats on Google Meet for live, virtual interactions with you and your child. If you have never used Google Meet before, please see this child (and adult) friendly reference [Google Meet Participation Quick Reference and Best Practices](#).

We recognize that there will be challenges, technical and otherwise, and we ask for your patience as we transition to our virtual school. All staff will be reachable during school-day hours (8:00 am - 4:00 pm) via email, and will also be available for one-on-one and small group Google Meet video chats by appointment.

Please let us know what is working for your family and what is not. We will be asking for feedback within the coming week, and through the duration of Distance Learning. Though the circumstances that have prompted the DLP to be necessary are distressing, we intend to seize this opportunity to create new and exciting learning experiences and opportunities for innovative collaboration with and among our students and teachers.

My own children lamented after the *long* weekend that they used to dream of being out of school for an extended period of time. They went on to sincerely say that they wished this was not happening now. As a father and as the Head of School, I recognize that being away from school will not be easy on our community. We are mindful of the socioemotional impact that this experience may have on students. Our school counselor Laura McGourty, Special Programs Director Sharon Ng, and the Family Association will be updating our community in the next few days about resources and opportunities to help families plan and enjoy their time online and off. For now, go to our school [webpage](#) and scroll down to "Supporting Your Student During School Closure."

As SFS Staff began working from home today, they wanted to send some quick "hellos" from their homes to your families. You can find our videos [here](#).

Together,

Steve
