

## COVID-19 SOCIAL CONTRACT

Reopening campus safely will be highly dependent on the partnership of the community members, on and off campus. Although the risk of viral transmission cannot be completely eliminated, it can be mitigated significantly by a social contract between all stakeholders. Furthermore, our collective ability to adhere to this contract will be critical to the pace at which we are able to reopen campus and will help to keep the gates open as long as possible.

We expect all staff and families to be respectful of each other, to collectively safeguard the health and safety of others, and to abide by the policies, procedures, and orders related to COVID-19 implemented by the state, county, and school.

The following are community expectations in anticipation of reopening (within 10 days of in-person learning) and must continue throughout in-person learning.

- [Protect yourself and others](#) with [mask-wearing](#), physical distancing, handwashing, and meticulous hygiene in and outside of school.
- Limit exposure by avoiding [high-risk behaviors](#) and large gatherings or situations in which people are not observing recommended behaviors, such as wearing masks and practicing physical distancing.
- Avoid higher-risk travel outside the Bay Area while you are working/your student is learning on campus or 10 days before a scheduled return to campus.
  - Higher-risk travel includes situations involving interactions within 6 ft of individuals outside of their household if they or those around them are not wearing masks at all times, especially indoors or in large groups (e.g., air travel)
  - If higher-risk travel is unavoidable, please inform the school and, upon return to the Bay Area, the traveler(s) should undergo a 10-day quarantine per [CDC](#) and [SFPD](#) recommendations.
- Observe routine medical practices, e.g., routine annual checkups, immunizations, and flu vaccines.

Once campus is reopened for your grade or division, in addition to items above

- Stay home when you, or any member of your household, are sick or experiencing COVID-19 symptoms.
- Conscientiously conduct the daily health screen.
- Partner with staff to help children learn the new health and safety protocols.
- Limit the personal items your child brings onto campus each day and reinforce policies around the sharing of food, supplies, and other items with other students.
- Notify SFS regarding sick household members or if any household members have had close contact (less than 6 ft for more than 15 min) with someone who has tested positive for COVID-19. Depending on the situation, your student may have to stay home for 10 days.

- Notify the school and undergo testing if you suspect your child or a household member has COVID-19 and await test results from home.
- Be kind, attentive, and helpful to anyone around who may be in need of support in following safety health practices. Provide respectful and gentle safety reminders and suggestions to those who may need them, and respond graciously when others provide them.

Please understand that each of us is responsible for the common good of the school community. All community members must adhere to our social contract in the 10 days prior to returning to campus. SFS will proactively communicate and, as necessary, take administrative action regarding the observance and enforcement of these expectations which may include a student or staff member not being able to participate in in-person learning / teaching.
